CHASE KINSLOW

Compliance & Transaction Processing Professional

PROFESSIONAL SUMMARY

CPA-licensed compliance and operations professional with a Juris Doctor, Bachelor of Accountancy, and three years of experience managing audit-ready documentation, financial reconciliations, and regulatory submissions in environments where a single error could disqualify an entire file. Proven track record building reconciliation models, executing GAAP-compliant audit fieldwork, and maintaining zero-error production standards across high-volume transaction processing. Combines the document precision required for collateral review and custody operations with hands-on experience in daily cash reconciliation, inventory tracking, and cross-departmental coordination.

KEY ACHIEVEMENTS & SKILLS

Compliance, Reconciliation & Document Review

- Developed proprietary parallel reconciliation models in Excel to track comprehensive project data sets, ensuring total eligible basis integrity by reconciling cumulative construction draws and recommending variance-correcting adjustments for Final Cost Certifications
- Managed comprehensive LIHTC audit fieldwork — substantive testing, GAAP-compliant adjustments, final adjusted trial balances, and HUD-tailored supplemental schedules requiring zero-error precision across multiple client portfolios
- Co-administered end-to-end regulatory application preparation, auditing project budgets for DSCR compliance through Year 15 and maximizing competitive scoring by optimizing FMR tiers, flood mitigation, and set-aside inputs

Transaction Processing & Production Standards

- Process high-volume transactions daily on POS systems with zero-error accuracy, managing cash handling, register reconciliation, and payment processing across a fast-paced retail operation
- Reduced cash-handling discrepancies by 15% through disciplined daily reconciliation procedures and adherence to standard operating protocols
- Maintained inventory control systems using digital tracking, reducing stockouts by 10% and ensuring accurate record-keeping across all product categories

Operations Coordination & Issue Resolution

- Managed daily equipment logistics, tracked supply levels, and reported shortages to management, reducing service disruptions by 20% through proactive escalation
- Coordinated across departments to fulfill member requests and resolve non-routine service issues, improving resolution time by 10%
- Maintained organized operational records, equipment rotation schedules, and condition documentation with consistent attention to detail and accuracy
